Remarks

Here's a cute and cozy home! This home features a spacious living room with original, hardwood floors, and a gas fireplace. Two good-sized bedrooms each have original hardwood floors and their own closets. The combo kitchen/dining room has all appliances and a back door to access the yard and detached two-car garage. A huge, walk-up attic features lots of room for additional storage. The full-size basement contains a newer furnace and water heater. Very solid throughout. Minutes away from grocery and retail shopping areas. Don't miss this fantastic opportunity.
